

TRUCKS FOR EXPLOSIVE ATMOSPHERES

Trucks for explosive atmospheres

Dangerous explosive atmosphere - the explosion proof pallet trucks, highlifters and stackers are developed for areas, in which an explosive atmosphere is generated occasionally due to different gases, vapours and mist.

The design focuses on the safety and ergonomic working conditions of the user - the ergonomically correct shape of the handle ensures a relaxed hold for the user.

High quality is ensured through an extended test programme and in cooperation with experts in Health and Safety.

Technical Specifications

The **pallet trucks, highlifters** and **stackers** in a special version are approved for operations in explosive atmospheres.

The trucks and their safety systems are manufactured in conformance with the stipulations of the directive no. 94/9/EC (ATEX 100A) and the standard EN-1755. The manual trucks, used in explosive atmosphere, have to fulfil the ATEX-directive.

The trucks are categorised in equipment group II and are suitable for areas, characterised as zone1. This means, in which an explosive atmosphere is generated occasionally due to different gases, vapours or mist.

Ergonomic handle ensures the user a relaxed hold.

The trucks have at least one vulkollan anti-static wheel in order to conduct away static electricity.

Strong construction ensures a long operating life and low maintenance costs.

The trucks are made of stainless steel.

The sketch shows an example of a zone.

The trucks are characterised by this product mark.

The explosion proof trucks are suitable for the pharmaceutical, oil, gas and paint industry.

Please ask for specification details. We also offer tailor-made solutions.
